Introduction to this Series

The Alvanon Standard Series is a collection of regionally-specific sizing standards, developed by Alvanon's expert team of Consultants and Modelers using a combination of proprietary body scan data and global body, demographic, and population studies and data. Physical and Virtual AlvaForms are built using these standards.

The European Atelier Women standard is intended to be a bit more shaped at the waist than population data would indicate. The Atelier Women body is slightly curvier than the European Women body, which is a straighter, more natural body shape.
