## Introduction to this Series

The Alvanon Standard Series is a collection of regionally-specific sizing standards, developed by Alvanon's expert team of Consultants and Modelers using a combination of proprietary body scan data and global body, demographic, and population studies and data. Physical and Virtual AlvaForms are built using these standards.

The China Mens Standard reflects the actual posture, proportions, size, and shape of Adult Men customers in the Chinese Market.  
The Athletic size range represents a more sculpted form and sizing standard geared towards athletic apparel brands.
