Introduction to this Series

The Alvanon Standard Series is a collection of regionally-specific sizing standards, developed by Alvanon's expert team of Consultants and Modelers using a combination of proprietary body scan data and global body, demographic, and population studies and data. Physical and Virtual AlvaForms are built using these standards.

The European Women standard is a straighter, more natural body shape designed as an alternative to the curvier European Atelier Women.

The European Plus reflects the posture, proportion, size and shape of larger bodied Adult Women in the European market, creating a more inclusive and commercially accessible offering specific to this region.
